PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of production experience shipping React.js and Next.js applications—real-time systems, AI-powered features, e-commerce platforms, and data-heavy dashboards. Sole frontend owner of a SaaS CRM serving **1,000+ active users** across Egypt and the UAE; promoted from intern to full-time developer on delivery speed. Holder of Meta’s Front-End Developer Professional Certificate (9 courses, Coursera, verified). Available immediately for full-time on-site, hybrid, or remote roles.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES2022+), TypeScript, React.js, Next.js 14/15/16, HTML5, CSS3
Libraries & Tooling: TanStack Query, tRPC, Zustand, Drizzle ORM, Prisma, Zod, Tailwind CSS, shadcn/ui, Stripe, Resend, Better Auth, Vitest, Recharts
Infrastructure & Monitoring: Supabase, Neon (PostgreSQL), Upstash, Vercel, Git, Sentry, PostHog, Husky, lint-staged, commitlint

WORK EXPERIENCE

Frontend Developer May 2025 – Dec 2025
WhispYr AI | whispYrai.com Cairo, Egypt

- Sole frontend owner of a real estate SaaS CRM serving **1,000+ active users** across Egypt & UAE; promoted from intern to full-time developer based on delivery speed and output quality.
- Built real-time WhatsApp chat integration using Supabase Realtime and whatsapp-web.js—agents manage live client conversations directly inside the CRM without switching tools.
- Shipped AI-powered property matching that ingests conversation history and interaction data to surface ranked, context-aware property recommendations for agent review.
- One of two engineers retained after a company-wide team reduction; defined API contracts and delivered complex features as the sole frontend engineer (founder reference available on request).
- *Stack:* Next.js, TypeScript, Supabase Realtime, Tailwind CSS, Sentry, PostHog

Frontend Developer (Freelance) Jan 2026 – Feb 2026
Darelkola | darelkola.vercel.app Remote

The link above is a portfolio demo deployed for client review only; the client’s live production system is privately hosted and not publicly accessible.

- Delivered a bilingual (Arabic/English) clinic CRM across two branches covering patient records, appointments, prescriptions, and staff management with role-based access control (RBAC) for doctors and staff.
- Achieved LCP of **2.13 s** on a data-heavy dashboard via image optimisation and selective server-side rendering; implemented full dark/light mode and internationalisation with next-intl.
- *Stack:* Next.js, Supabase, Prisma, Tailwind CSS, shadcn/ui, next-intl

Solo Developer / Founder Jan 2026 – Present
Valkyrie | val-store.vercel.app Remote

The link above is a portfolio demo deployed for client review only; the production system is privately hosted and not publicly accessible.

- Built a full-featured e-commerce platform with headless storefront and custom admin CMS—product and order management, promo codes, low-stock alerts, and a dynamic landing-page builder.
- Integrated Stripe and Cash on Delivery; transactional emails via Resend; achieved LCP of **2.11 s** via image optimisation and code splitting; Upstash rate limiting active in production.
- Established a professional Git workflow with Husky, lint-staged, commitlint, and a Vitest test suite, ensuring type-safe, quality-gated releases on every commit.
- *Stack:* Next.js, tRPC, Drizzle ORM, Zod, Neon, Stripe, Resend, Upstash, Vitest

PROJECTS

Prime Paper Company—Internal ERP System Mar 2026 – Present
Next.js 16, TypeScript, tRPC, Drizzle ORM, Neon PostgreSQL, Better Auth

- Internal ERP for a manufacturing business: raw-material cost tracking, production output records, customer management, and unpaid-invoice tracking (private deployment).

- PDF invoice generation, Recharts analytics dashboards; fully type-safe end-to-end via tRPC + Drizzle ORM on Neon PostgreSQL; Sentry, PostHog, and Upstash running in production.
